Hai-Dang VU

1 Rue Jules Vallès • 91000 Évry-Courcouronnes • haidang.vu@etud.univ-evry.fr • (+33) 7 45 70 67 38 • LinkedIn

Education

Université Évry Paris-Saclay — Évry-Courcouronnes, France
Master in Bioinformatics- M1 GENIOMHE-AI — 2026-2027
Relevant courseworks: Methods for Genomics; AI, CS & Data science for Genomics

School of Pharmacy - University of Medicine and Pharmacy at Ho Chi Minh City — Ho Chi Minh City, Viet Nam
Degree of Pharmacist - Specialization: Pharmaceutical Sciences — 2021-2026
Final-year thesis: SynELF - A machine learning framework for molecular energy prediction based on active learning.

Professional and Research experience

MedAI Research Group - Department of Organic Chemistry — Ho Chi Minh City, Viet Nam
School of Pharmacy - University of Medicine and Pharmacy at Ho Chi Minh City
Research Assistant — 06/2026 - Present

- Personal research topics: Deep learning models, quantum chemistry calculation, molecular docking
- Assisted in data gathering, data processing and framework building for Research group.
- Built a molecular docking framework using ProDock and analyzed docking results for 2 theses and a workshop.
- Organized and lectured in a molecular docking workshop for Department's undergraduates and graduates.
- Assisted in computational drug discovery lectures.
- Assisted in mentoring and monitoring undergraduates' theses.
- Assisted in management of an online server, six workstations for the laboratory.

MedAI Research Group - Department of Organic Chemistry — Ho Chi Minh City, Viet Nam
School of Pharmacy - University of Medicine and Pharmacy at Ho Chi Minh City
Laboratory Assistant & Trainee — 01/2025 - 06/2026

Trainee within Research group's path:

- Drug discovery pipelines & frameworks
- VAE-GAN models for drug discovery
- Synthesis modeling for drug discovery

Organic Chemistry Laboratory - Department of Organic Chemistry — Ho Chi Minh City, Viet Nam
School of Pharmacy - University of Medicine and Pharmacy at Ho Chi Minh City
Laboratory Trainee — 09/2025 - 06/2026

Assist in projects and thesis within Department's research topics:

- Lead compound synthesis and optimization
- Drug impurities synthesis and purification
- Organic reactions optimization
- Cheminformatics, bioinformatics and computational drug discovery

Scientific publications

Van-Thinh TO, Nhu-Ngoc Song NGUYEN, Phuoc-Chung Van NGUYEN, **Hai-Dang VU**, Ngoc-Tuyen TRUONG, Qui-Hien NGUYEN. Molecular similarity for screening Apelin agonists: evaluation and performance optimization with voting-stacking techniques. Tap Chi Y Hoc TP Ho Chi Minh - Duoc Hoc. 2026 Feb;29(2):11-9. doi: 10.32895/hcjm.p.2026.02.02. — 02/2026

Skills & Interests

- **Technical**: Python, Pytorch, RDKit, PyMOL, AutoDock Vina, GNINA...
- **Language**: Vietnamese (Native), English C1 (IELTS 8.0), French B2 (DELF B2)
- **Dry-lab**: ML/DL models in computational chemistry; molecular docking; in silico drug design.
- **Wet-lab**: Organic synthesis; R&D of pharmaceuticals; in vivo and in vitro drug discovery.
- **Interests**: Computer-Aided Drug Design; R&D in pharmaceuticals; Bioinformatics; Cancer and Cardiovascular Research.
